

SIMPLIFY YOUR AUDIT AND INSPECTION DATA COLLECTION, management and reporting to reduce risk and cost

Used by more than 55,000 professionals to complete over 250,000 audits and inspections annually, Checkit by Certainty Software is a flexible, powerful and trusted enterprise-level audit and inspection management solution.

ABOUT CHECKIT

Checkit is a proven solution for any audit/inspection based performance improvement program in virtually all sectors of the economy from global Fortune 500 multinationals in food manufacturing to leading national companies in the hospitality sector.

Checkit allows for data entry from paper, browser or the Checkit app for smartphones and tablets and provides all you need to design and manage audit/inspection checklists; collect and report audit/inspection data; and manage and mitigate the risks, incidents and issues identified in the audit/inspection process.

Checkit is ideal for managing the data and corrective actions from any audit/inspection process including:

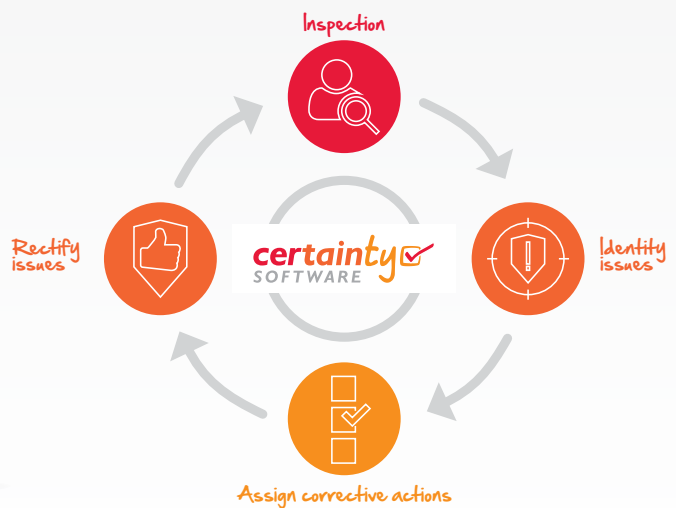

- ✓ Safety Audits & Inspections
- ✓ Incident Reporting & Investigations
- ✓ Supply Chain Compliance Assessments
- ✓ Good Manufacturing Practices (GMP) Audits & Inspections
- ✓ Regulatory Compliance Audits
- ✓ Facility & Equipment Inspections
- ✓ Certification audits (ISO, SMETA, GMP, etc.)
- ✓ Quality Audits
- ✓ Environmental Audits & Assessments
- ✓ Service Delivery Evaluations
- ✓ Risk Assessments
- ✓ ... and much more!

With Checkit, there is no manual data entry and your audit/inspection data is instantly available online for the management and reporting of performance across your business
