

MANAGE PERFORMANCE, NOT DATA!

Certainty is a powerful and trusted enterprise-level audit and inspection software solution to manage and report business risk, compliance and performance metrics easily and efficiently.

Used by more than 85,000 professionals to complete over 1,000,000 audits and inspections annually. Certainty Software is an audit and inspection management solution that provides all you need to easily collect, collate and report consistent, accurate and meaningful metrics across your business.

ABOUT CERTAINTY

Certainty is a proven solution for any audit/inspection based performance improvement program and is used virtually all sectors of the economy from global Fortune 500 multinationals in food manufacturing to leading national companies in the hospitality sector. Certainty allows for data entry from paper, browser or the Certainty app for smartphones and tablets and provides all you need to design and manage audit/inspection checklists; collect and report audit/inspection data; and manage and mitigate the risks, incidents and issues identified in the audit/inspection process.

With Certainty, there is no manual data entry and your audit/inspection data is instantly available online for the management and reporting of performance across your business.

Certainty is ideal for managing the data and corrective actions from any audit/inspection process including:

- ✓ Safety Audits & Inspections
- ✓ Incident Reporting & Investigations
- ✓ Supply Chain Compliance Assessments
- ✓ Good Manufacturing Practices (GMP)
- ✓ Audits & Inspections
- ✓ Regulatory Compliance Audits
- ✓ Facility & Equipment Inspections
- ✓ Certification audits (ISO, SMETA, GMP, etc.)
- ✓ Quality Audits
- ✓ Environmental Audits & Assessments
- ✓ Service Delivery Evaluations
- ✓ Risk Assessments
- ... and much more!

Certainty Software keeps things simple, which makes the entire product and process so easy to work with. The team behind Certainty Software is professional, reliable, and friendly. They always make the time to assist us.

- John Peoples, Behavioral Safety Team Leader, Huntsman Corporation
