- ✓ View, add and edit comments directly in the Actions form in app and .mobi (v 4.8.23)
- ✓ Bug fixes and ease of use improvements.

Changes to the Admin Portal

New Media Library Role - "Media Library - Access"

A new Role was added in v 4.7.1.4 to give users who are not Administrators permissions to access files and images for their own sites in the Media Library.

"View File" button added in Actions and Completed Checklists/Actions subgrid

A View file icon was added in Action Details and Completed Checklist/Actions subgrid in v 4.7.1.7 allowing users to view files and images linked directly to Actions

Various bug fixes

Various bugs were fixed in v 4.7.1.4 - v 4.7.1.8 of the Certainty Admin Portal (.com) making inspection, audit and assessment planning and management more efficient. Contact your Certainty Customer Success representative to make sure your system is up to date!

Changes to the App & .Mobi

Old snapshots are now greyed out/hidden when copying or reauditing a checklist

Old snapshots of checklists (which you can't copy/re-audit) are now greyed out/hidden when selecting what completed checklist to copy as of app/.mobi v 4.7.96.

New drawing and mark-up tool for photos

A Mark-up/Drawing tool that can be used to highlight areas of an image and add text to it is available from .mobi version 4.7.98 and app version 4.8.10. There is a setting in the Admin Portal in Administration/Settings that needs to be enabled for the tool to be visible to users.

The drawing tool is available only:

- when user takes a NEW photo on the App (with camera)
- when user adds exactly ONE image from gallery

View, add and edit comments directly in the Action screen

Comments are now more visible and easier to add to Actions in the app and .mobi (v 4.8.23). Actions can be added, edited and viewed directly in the main Action screen as well as using the options menu at the top of the screen.

Various bug fixes

Various bugs were fixed in v 4.7.1.4 - v 4.7.1.8 of the app and .mobi, making the process faster and smoother for field users as they complete and submit their inspections, audits and assessments. Make sure your app is up to date by downloading latest version for your device.
